**A fascinating journey through the history, culture and landscapes of 60 towns and a hundred beauty spots in the Varese area. Spectacular photographs illustrate comprehensive and precise descriptions that range from mediaeval to contemporary art.**

**For the first time, the reader can enjoy all these treasures and a multitude of facts that lend "splendour" to even the plainest constructions, such as the ancient Longobard oratories, and pave the way to exploring the artworks housed in religious and civil buildings that are not always accessible to the public.**
